

Activities and Touring

A million acres in size, El Questro is located on the eastern perimeter of the Kimberley Region, and extends for approximately 80 kilometres into the heart of the region, most of which has never been explored. It is one of the last true frontiers. Go barramundi fishing, set out on a horse trek, or explore remote areas by helicopter that only a lucky few have ever seen.

| Activity | Duration | Price | Min. Guests | |
|--|--|------------------|------------------|---|
